When the station is painted and we have some hitching posts put up to tie some of the animals to, instead of to our shrubbery and trees, it will look as if people of some ambition live along this front.

> The Italian who lost his hand by the accidental discharge of a shot gun several months ago has secured a position with the railroad as flagman in the vicinity of Miami and his family consisting of a wife and eight children left Wednesday to join him. They have been very unfortunate since coming to Florida. One of the little children stepped into a fire and burned both feet terribly, but by very careful attention and nursing by their good neighbors, the little sufferer has both feet entirely healed. We hope Miami will bring them good luck.

> William F. Richards and Miss Beatrice Richards arrived on Monday evening's train. We were hardly prepared to see little Francis developed into such a fine handsome, broad shouldered man. Two years certainly make a difference in growing children. Miss Beatrice having early learned about the value usually attached to small packages wisely decided to remain just the same size as when she left, and is as full of life and good spirits as of

> Mrs. John Miller is in charge of the Post Office, Express office and Florida East Coast railroad ticket office during the absence of Miss Vina McCormick who is spending her vacation at Asheville. After spending several years attending to her various duties in a manner creditable to her, and satisfactory to her many patrons she found it absolutely necessary to take a prolonged rest. We hope she will enjoy every minute of her stay, and come home refreshed and strengthened, and ready to take up her work, which Mrs. Miller will be glad and ready to resign, in spite of the fact that she, also, is a very satisfactory incumbent of the various offices.

Stepping on a rusty nail has been the cause of many cases of lock jaw. The nail was not so much the fault as neglects of the wound. If such wounds were promptly clearsed and BAL-LARD'S SNOW LINIMENT applied there would be no lock jaw, as the antiseptic properties of the liniment would counteract the poison and the wound would heal quickly.
